

Gori Propellers

Gori folding propellers are renowned as the world's finest engineered folding props for yachts. The Gori Range comprises 2,3,4 Blade Geared folding configurations along with an ultra low drag 2 Blade racing series.

Within the extensive range of Gori propellers is a prop to suit engine powers ranging from 8hp to 300hp. Gori folding propellers have proven themselves the world over for their superiority and quality for more than 20 years. Gori is simply the world's finest engineered folding yacht prop, suitable for shaft drive and Saildrive applications with all engine brands.

Corporate

Power Equipment Pty Ltd

Power Equipment is a wholly Australian owned family company that was incorporated in 1990 as the exclusive importer and distributor of Yanmar marine and industrial engines.

Over the intervening years, astute management combined with an absolute commitment to customer support, has seen the company not only flourish but also be recognised with a string of impressive awards and accolades.

The formula for success at Power Equipment goes beyond customer support. Branch offices in key locations of Melbourne, Sydney, Brisbane and Perth ensure that product availability, technical support and spare parts are never far away.

Of course the Yanmar product itself is the very finest available. As a direct result of the product itself and Power Equipment's presence in the market, **Yanmar has consistently been by volume, Australia's top selling brand of diesel engine, irrespective of size or application.**

In addition to Yanmar, Power Equipment is also the authorised importer and distributor for a range of associated brands of marine products.
